MP 11

**Piazzetta's MP 11 is the new pellet-burning fireboxes mounted on rails for an easy extractable loading system, therefore there is no need for any inspection port and any side or front-loading applications. Perfect for first time installations or to be installed into an existing structure just by the removal of the base. Forced air via the Multifuoco System Dual Power, which is placed into a separate tech compartment. Vast range of accessories to extend its autonomy. **
